### Superintendent's Highlights

Gooding School District has just complete the second year of a \$3 million dollar, three year 21<sup>st</sup> Century Grant. This grant has provided before and after school activities and learning opportunities for students K-12. A summer school provides extended year learning opportunities. Parents have participated in our school library with their children in reading and taking accelerated reading tests. Computer labs are open for student and parent use.

The district has also made good forward progress in our preparation for the standards based education. Staff development time has been used to align curriculum priorities from K-12. The elementary school has published a brochure for each grade level with the critical skills to be learned at each grade level for each subject.

We were involved with the pilot computerized testing of the Measures of Academic Progress (MAP) and the Idaho Standardized Achievement Tests (ISAT). The testing went smoothly.

### Progress Towards Meeting District Goals

#### 2001-02 Goals

#### Progress

#### Improve Reading Scores

Our IRI Scores show improved reading skills at all grade levels. Students come to kindergarten with limited skills. Thirty percent of our kindergarten students started schools at level I. Only 10% of our kindergartners were at level I this spring. Our first grade improved from 12% at level I in the fall to 1% at level I this spring. We had 22% of our students in second grade at level I in the fall and only 12% at level I this spring. The third grade had 35% of the students at level III in the fall and 54% at level III in the spring. Our goal is for 90% of our students being at level III and we are progressing in that direction.

#### 21<sup>st</sup> Century Grant Implementation

We are in the second year of operation under our grant and the involvement continues to grow. Last year we had 300 students involved and this year we have had over 400 students participating in the program. Parent participation has also increased with more parents coming to the after-school library to read with their children. Our summer school plans for more than 300 children.

#### Implementation of Achievement Standards

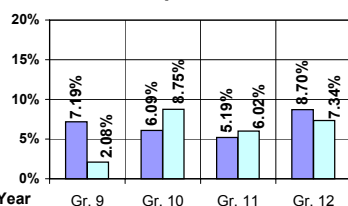

Although much had been done in developing curriculum in the district, this past year we have taken positive steps to align our curriculum with the standards. The staff has collaborated for each curriculum area to determine the important things each student should learn and know at each grade level. The primary grades have developed report cards to inform parents if their child is learning the skills and knowledge for successful completion of the curriculum.
